QUDUS KOLAWOLE

PROFILE

Experienced Business Intelligence Analyst with a proven track record of developing comprehensive data solutions and driving data-informed decision-making. Combining technical expertise in SQL, Power BI, and advanced analytics with strong business acumen to deliver actionable insights and optimize business processes.

CORE QUALIFICATIONS

- Advanced proficiency in SQL, Spreadsheets, and data visualization tools (Power BI, Tableau)
- Expert in data preparation, data manipulation, and data modeling
- Strong analytical and problem-solving skills with attention to detail
- Excellent communication skills for translating complex data into actionable insights

WORK EXPERIENCE

Store Supervisor
Mar 2023 - Present
Angel's Bakery, London

- Managed daily store operations, ensuring a high level of customer service and smooth functioning of the store.
- Analysed customer feedback and implemented improvements in service delivery and product offerings.
- Optimized stock levels in coordination with the inventory management team, minimizing stockouts and excess inventory.
- Monitored sales performance, identified areas for improvement, and recommended strategies to increase sales.
- Trained and supervised staff, fostering a positive team environment and enhancing employee productivity.

Quality Assurance Officer
Dec 2020 - Feb 2023
May and Baker Pharmaceutical, Lagos, Nigeria

- Assisted with the review and analysis of technical documents, including batch records, manufacturing procedures, and specifications.
- Participated in quality audits and inspections of manufacturing facilities and laboratories.
- Conducted data analysis and trend monitoring to identify potential quality issues.
- Prepared and maintained quality-related documentation, such as deviation reports and corrective action plans.
- Supported the development and implementation of new quality control procedures.
- Stayed updated on current regulatory requirements and industry best practice.
